Subject: Response to Senator Kohl-Wells request for 3-Tier Task Force Labor Representation

Dear Nate,

I'm responding to the e-mail sent from Senator Jeanne Kohl-Wells on August 7th regarding labor representation on the 3-Tier Task Force. I think the Senator has an excellent idea in utilizing the existing Union Management Communication Committee (UMCC) process as the forum which will provide an additional opportunity for our union representatives to voice concerns and issues of a general or collective nature on this topic. I have asked our Labor Relations Manager, Mickie Patterson, to contact our labor representatives to set up a meeting. Certainly any opportunity to provide additional direct communications with our employees and labor representatives on this subject matter is important.

Sincerely,

Rick Garza
